FEW CENTS DESTROYS YOUR DANDRUFF AND STOPS FALLING HAIR

Save Your Hair! Make It Thick, Wavy
and Beautiful—Try
This!

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its luster, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine to-night—no—any time—will surely save your hair. Get a small bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, luster and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a few locks of fine, downy hair—new hair—growing all over the scalp.—Adv.

AMERICANS GIVEN BRITISH DECORATION

Lieut. C. B. Reese of Milford, N. H., Was One of Those Cited for Bravery in Fighting the Bolsheviks Along the Volodga Railway.

Archangel, Dec. 26 (Correspondence of the Associated Press).—The seven American soldiers who yesterday received British decorations for gallantry in fighting the Bolsheviks along Volodga railway front were highly praised in the official citations.

Lieut. G. B. Reese of Milford, N. H., was awarded the military cross for having "reconnoitered enemy positions and brought back most useful information which was greatly instrumental in the success of the operations on Oct. 14." The citation adds that "since joining the column Lieut. Reese frequently had shown great daring, loyalty, pertinacity and devotion, and given a fine example to his troops."

Sgt. H. G. Hayden of Athens, O., received the distinguished conduct medal for the operations on Oct. 14. His citation says that he reconnoitered the ground behind the enemy's rear positions of which the British commander had no previous knowledge. It adds that he always displayed great initiative, coolness, devotion and courage, and was a fine example to all troops.

Pvt. C. E. Garrett of Kalamazoo, Mich., received the military medal. His citation says that, having no cover and "without thought of personal danger he discharged his duties with coolness and pertinacity under exceptionally trying circumstances, setting an admirable example for all. Pvt. Garrett also carried R. W. Rickman, who was wounded, back to a place of safety under heavy shell fire, saving Rickman from the hands of the enemy."

Pvt. L. L. Hopkins of Muir, Ky., was cited for the same reason as Garrett except that he did not participate in saving Rickman.

Corp. W. Shaughnessy of 185 Beaufort avenue, Detroit, and Privates J. P. Wagoner of 985 John street, Detroit and G. Hinman of Linwood, Mich., each received the military medal for having, the citation says, "carried the telephone wires to our most forward position under heavy machine gun fire. It was entirely due to their devotion and courage that communication was established between our troops. Throughout the operations they displayed loyalty, coolness and devotion."

MORE MONEY SPENT ON VERMONT SCHOOLS

Grand Total of \$547,374.49 Expended by the State During 1918, as Compared with \$336,273.73 During the Preceding Year.

The following figures show a comparison in the cost of the Vermont educational department in the last three years. It will be noted that there is a decline in the repairs and current expenses, which is in part due to the war in the last year. The miscellaneous is materially increased. If the \$1,500 which is Prof. Beach's salary for vocational education is added to that it will be less than before. Administration is larger but it likewise includes an expenditure of salaries, one of which was increased.

Do You Want "Honest Clothes"?

Copyright 1918 Hart Schaffner & Marx

No merchant would knowingly employ a dishonest man; he must be just as careful that he doesn't sell "dishonest" clothes. Dishonest clothes are those that look better than they are; that cost more money than they're worth; that fool you on quality.

That's why we are anxious to know all about the clothes we sell; how they're made, how long they'll wear so that we can guarantee them to be as fine as they look and to give even longer service.

When we tell you the clothes we sell are made by

Hart Schaffner & Marx

you know they are "honest" clothes; that they are made of all-wool materials; tailored as fine as is possible; and that they'll give you your full money's worth of service. We're so sure of all this that we guarantee your complete satisfaction.

Pvt. Fred Needham, Member of Military Police, Expects to Go to Germany.

Pvt. Fred Needham of 301 Co. B, military police, has lately written to his relatives in this place something of his experience since he left the United States, which will be of interest to his acquaintances here. He says: "We left Boston on the 8th of July and went to Halifax. Stayed there one day and one night; then we left with the company. There were 21 boats of them. We did not land until the 23d of July, in London. Then we went on the train and went to Winchester, England, to a rest camp. Stayed there three days and then to Southampton, across the English channel to La Havre, to another rest camp. Stayed there two days and then we went to Lonsrey and there I stayed for about six weeks. Then I was sent to St. Armand and there stayed for four months. I had one good time and saw a lot of the boys when they came across, but only one that I knew; that was Will Allen from Peacham. That was a classy camp there, but now I am with the M. P. outfit, so this will be my address for a while, 301 Co. B, military police."

"I am in a nice town, Nevres. Have only been here about a week. Expect to move, so I guess that I will see some of the world on this trip. I have not seen anything of Stanley M. Do not know where he is now."

"It is getting rather cold here now, but we are still going north. I do not think I have lost anything by coming across. I suppose they are paying good money for help over there and that everyone is all hired out for the winter."

"Houses out here are made of stone. There is more stone here than lumber to build with. There are a lot of German prisoners here. They wanted to know how many Americans there were over here. We all told them there were about 15,000,000 here now and still coming over. You ought to see their eyes stick out. You could have hung your hat on them. Some of the Germans had been in service only one year. Were in the front lines only about two weeks when they were taken prisoners. That was the first chance they had to come over to the American side and they said they were glad to be American prisoners, for they had more to eat here than they did at home and they said that the women and children were starving to death by the hundreds in Germany. They had got to do something or starve, for they did not get anything to eat there."

"Well, it's time for dinner here, but back home just getting up for breakfast. I am sleeping in a barracks, where we have electric lights. I can tell you more about the place when I get back then I can write, for I am a poor hand to write."
